

Pro Max[™]

UNIVERSAL MAINTENANCE REMOTE

The Pro Max™ maintenance remote system eliminates lost time and energy roaming between the field and controller. It makes light work of system inspection and service work, providing field personnel with complete control over any compatible irrigation controller. At nearly a mile away, the operator can activate one or more stations with the push of a button, permitting immediate observation of system operation and perfomance. The controller access code feature allows independent control of up to 999 controllers with permanent mount receivers.

KEY FEATURES & BENEFITS

COMPLETE REMOTE CONTROL KIT IN A CARRYING CASE Includes transmitter, receiver, connector & cable assembly and a user's guide in one convenient, portable case

OPERATES WITH SEVERAL SERIES OF RAIN MASTER & OTHER MANUFACTURERS' 24V AC CONTROLLERS (PROMAX-UA VERSION ONLY)
